1949 GREETINGS

Dear Friends: As I am writing this: We are all looking forward to another summer and planning our gardens. This will not reach you until February but I am hoping that you can find time to look over what I have to offer.

You will find both new new and old varieties, also the Standard Popular Varieties. Many have lost some old favorite variety, and want to replace it. You might find it listed here. Some of these I have kept to use in hybridizing and only have a few to offer.

In making out the General List, there is first the name of variety followed by name of originator or country in which it was originated. With my own varieties and all the very new or old varieties you will find the year it was first offered for sale. Then description of variety as accurate as possible.

It is impossible to give exact time from planting to blooming, but I have tried to give you an idea as to when you look for blooms, if they are all planted at the same time.

I am sorry that it was impossible for me to attend any of the shows last summer as I know, I missed a great deal of pleasure, but I want you to know how much we enjoyed visiting with every one who came to see us and the flowers.

I want to thank all who have written to me, and tell you that I enjoyed all your letters. Only wish I had time to answer each one personally, and hope you will come again this year or write.

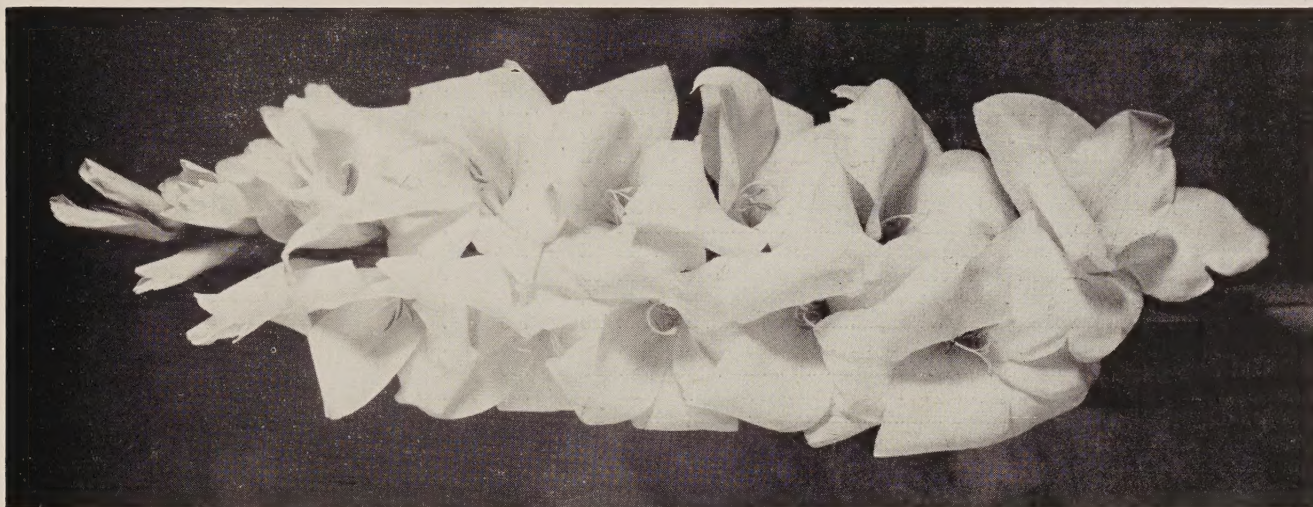

If you have never come before. I think you would enjoy seeing our flowers, and we will be glad to see you.

Kinyon Glad Gardens are located 10½ miles east of Gladwin or about 16 miles west of Standish on M-61. Then ½ mile south through a woods road. The sign and mail box are on M-61.

Sincerely,

MRS. GEORGE KINYON,
